You will learn by yourself.
-  the *Constructivism* of the Swiss *Jean Piaget* and his stages of cognitive development.
The process does not move from theory to practice, but from practice to theory, because ...
“*You learn how to preach by preaching.*”
-  the *Meaningful Learning* of the American *David Ausbel*:
It is not a one-way teaching but entails the participants’ continuous involvement to foster the interaction with the learning community.
-  the *Personalised Learning* method of the Italian *Maria Montessori*: Small groups of 10 participants who receive personal attention.
